What Is Sustainable: Remembering Our Way Home

By Richard Adrian Reese

Createspace, United States, 2011. Paperback. Book Condition: New. 228 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.A hurricane called Peak Everything is rapidly approaching, and we are not prepared for it. Looking through doom-colored glasses, the future appears turbulent and chaotic, for obvious reasons. But when we switch to rose-colored glasses, it's thrilling to see that dawn is breaking out all over. A dysfunctional way of life is dying, and this opens up a wide variety of new possibilities, some of which could lead to a genuinely sustainable future. No matter what we do, the Earth will heal. It will heal if we self-destruct, and it will heal if we remember healthy values and lifestyles. Are we capable of intelligent change? Yes. But problems that took centuries to create will not be resolved in a single generation. The purpose of this book is to encourage the healing process, to propose important questions, and to examine our reality from a different perspective. One thing is certain: the future demands a radically more intelligent worldview and skill set - and a genuinely healthy future will have little in common with the way we live today....
