Summary: "Though it's a work of nonfiction, The Disaster Diaries explores every catastrophic disaster, from floods and earthquakes to sci-fi scenarios like zombie infections and escaping giant alien monsters, and asks experts around the world exactly what preparations are needed. From there we move, in logical sequence, to more intricate tasks: preparing an emergency disaster kit, learning to protect ourselves in the event of violent encounters (hand-to-hand combat training; learning how to fire a gun), acquiring basic medical skills, planning a strategy to get out of the disaster area, and so on. But this is no...
